

To the Honorable Commissioners of the FCC,

I am writing today regarding Docket No. 02-277, the review of broadcast media ownership rules. I urge you to keep in place the current rules in order to insure the free and democratic press which is one of the cornerstones of our democracy. Corporations have become powerful in a way never believed possible and to rescind the rules regarding the ownership of everything we see, hear and read would only serve to empower them further. This would be a devastating blow to our freedoms and to our ability to function as a thoughtful, civil and well informed people. Please do not be swayed by corporate interests from without OR within the commission.

Respectfully,

Catana Weinbrown
